Professional Summary

I design websites and my specialty is Front End.

Work Experience

I designed many projects and I was working with html and php and JS and I was working with React. I designed more than one project and I was selling them. I was working as a freelancer.

Academic History

Arab Open University | 2020-2021

I am still studying and this year is my graduation year. I am just working alongside my studies to gain experience in the job market.

Awards and Certification

I have never taken a certificate, I learned through the internet and I am still learning to develop myself
